PIRATES WIN OUT IN NINTH

Victory Due to Two Wild Throws Made by Catcher Erwin.

Pittsburg, Pa., May 9.—After twenty, six hits and twelve runs had been shared equally by Pittsburg and Brooklyn today, the Pirates took the game in the ninth on two wild throws, by Catcher Erwin. Bell had given Wagner and Miller passes to first, the Flying Dutch-man had stolen second and got to third on Erwin's first wild throw, but he was caught at the plate in trying to score on Flynn's fly. Erwin threw wild a second time to third, and Mil-ler scored the winning run, on the er-ror. Seven pitchers were used, with-out decisive effect. Burch was put out of the game for disputing a deciion by Umpire Kane. The score:

#### NORTH CAROLINA ENDURANCE RUN

SPECIAL RULES

No run any day to exceed 120 miles. No run any day to exceed ten hours' time. Four control points in each day's run. No car to pass any control point, intermediate, midday or night, ahead of schedule time. One hour's time out at each midday control.

The North Carolina endurance run promises to even exceed in popularity the Virginia endurance run, which finished on Saturday afternoon, for the reason that the automobilists will be allowed to pass any of these control points and the tree control points and the control points will not be an expected to the control points and the control points will not be an expected to the control points will not be an expected to the control points will not be an expected to the control points will be at least four control points will not be an expected to the control points will be at least four control points and the control points are control points

age time consumed in any one day will be about eight hours, and there will be about eight hours, and there will be one hour intermission at the noon day controls.

No Speeding Allowed.

A point of especial interest is that excessive rate of speed. nine minutes' time for opening gas line, and also has bent front axles, for

these control points ahead of time.

The neonday control points and the night control points will be treated exactly as intermediate control points are treated. That is to say, no car will be allowed to reach the noonday control or the night control shead of schedule time. In this way the cars will maintain a steady rate of speed, and there will be no racing. The speed regulations will not be broken for the reason that none of the contestants will care to exceed the speed allowance when they will be forced to stop their car at the control and run their motors until the time allowance has been reached.

May 9, 1810.

Mr. Otis M. Alfriend. Referee. City:
Dear Sir.—I hereby protest against the ruling of the technical committee in regard to Oldsmobile No. 4, run in Virginia Endurance Run. in regard to my penalty of 15 points for bent steering knuckle. In the first place, my steering knuckle was not bent, and if it is, it was bent from being overturned before the run, as I can furnish evidence to prove.

In regard to Rambier No. 26, in the same run, the observer's card shows
